

Internationalizing Research University in Russia: the Case of Lobachevsky

Dr. Nikita Avralev, Vice-Rector for Public Relations

Dr. Alexander Bedny, Vice-Rector for International Affairs

The poster presentation will demonstrate the case of internationalization of National Research Lobachevsky State University of Nizhny Novgorod (Russia) - a participant of the "5-100 Program". The main techniques applied for the university internationalization, including the role of internationalization in the strategy of university development and its global positioning, as well as the mechanisms involved in the internationalization of education, research and innovation will be outlined. The key results and the prospects for further development of university internationalization processes in the context of enhancing its competitiveness among the world's leading science and education centers will be discussed.
