

**TASHKENT STATE TRANSPORT UNIVERSITY**

**International Cooperation Department**

## Mission

- To ensure the training of high-skilled experts and engineers by our qualified academic staff in the fields of transport and management by taking into account the ever-changing needs and requirements of the transport industry;
- To support innovative academic research and its application to the transport industry for the continuous development of transportation systems;
- To form national and international cooperation with leading higher education and scientific institutions by establishing joint educational programs, supporting academic research projects and mobility;
- To allocate a culture of lifelong learning;
- To cooperate with institutions and companies in the transportation sector to ensure the up-to-date professional knowledge and career development of our current students and graduates.

## Vision

- To be an international, leading university with its expertise and creativity in science and technology.

# Tashkent State Transport University

Tashkent State Transport University (TSTU) was established in 2020. However, its academic tradition goes back several decades. The University was founded after the merger of the Tashkent Institute of Railway Transport Engineers (1931), Tashkent Automobile Institute of Roads (1972) and Tashkent State Technical University, Faculty of Aviation (1956).

# Information about the University

TASHKENT STATE TRANSPORT UNIVERSITY IS **THE LARGEST** TRANSPORT UNIVERSITY IN CENTRAL ASIA  
WITH **9 FACULTIES AND 41 DEPARTMENTS**

**19000+**  
STUDENTS

**650+**  
TEACHERS

**250+**  
TEACHER'S OFFICES

**12**  
RESEARCH CENTRES

**1001+**  
PLACE IN THE IMPACT  
RANKINGS

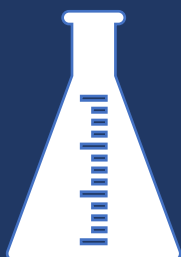

**50+**  
JOINT EDUCATIONAL  
PROGRAMS

**30+**  
MODERN LABORATORY  
CLASSROOMS

**9**  
FACULTIES  
**41**  
DEPARTMENTS

**80+**  
BACHELOR'S DEGREE  
PROGRAMS

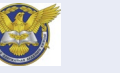

**38**  
MASTER'S DEGREE  
PROGRAMS

**18+**  
SPECIALITIES IN POST-  
GRADUATE STUDIES

Teachers**

44

**Joint  
Programs**

105

**International  
Agreements**

Attracting qualified professors from prestigious foreign universities

Wider involvement of foreign students in co-educational and foreign language learning programs

Optimization of the discrepancy between the amount of payment for contracts for full-time and part-time education of foreign students

Increasing the number of foreign teachers and foreign students to at least 5%

# Strategy of Transformation of the Educational Process of the University

## INTERNATIONAL CREDIT – MODULAR SYSTEM

- ECTS - full transition to the European Credit Transfer and Accumulation System
- Creating a Transformation Office
- Registrar's Office - introduction of a new management system in education

## INTERNATIONAL STANDARDS

- Implementation of foreign educational plans and programs
- Organization of academic mobility and foreign internships
- Creation of an educational and scientific laboratory base

## INTERNATIONAL ACCREDITATION

EQAC - Educational Quality Accreditation Commission (for all fields of study)

ENAE - European Network for Accreditation of Engineering Education (for the management of technical, engineering and intelligent systems)

FIBAA - The Foundation for International Business Administration Accreditation (in the fields of Economics, International Human Rights and Jurisprudence)

## Transformation of the University faculties by international educational standards

2022

- Aeronautical Engineering
- Logistics
- Economics and Management

2023

- Civil Engineering
- Mechanical Engineering
- Power Engineering

2024

- Information Technology

2025

- Automotive Engineering
- Geology Engineering

2026

- Law

# University's Strategies for Improving the World Ranking and Internationalization

2022

Entering the list of THE  
impact rankings "TOP-  
1000"

2024

Joining the "TOP 500" list of QS  
"Emerging Europe & Central Asia"

2026

Entry into the list of "TOP-1000"  
universities in the specialty "Engineering"  
in the subject rankings THE and QS

2028

Entry into the list of "TOP  
1000" QS rating

2030

Entry into the list of "TOP 1000"  
THE rating

INCREASING THE NUMBER OF FOREIGN SCIENTISTS AND TEACHERS

*In 2025 - 78 foreign teachers*

INCREASING THE NUMBER OF INTERNATIONAL PROGRAMS AND PROJECTS

*In 2025 - 50 foreign projects and programs*

INCREASING THE NUMBER OF INTERNATIONAL STUDENTS

*In 2025 - 1000 international students*

STRENGTHENING COOPERATION WITH FOREIGN MANUFACTURING ENTERPRISES AND  
UNIVERSITIES INCLUDED IN THE "TOP 1000"

*In 2025 - cooperation with 100 HEIs and enterprises*

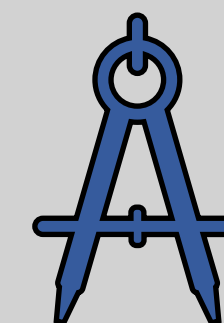

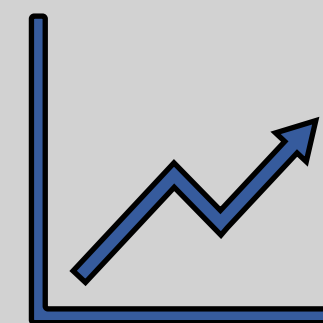

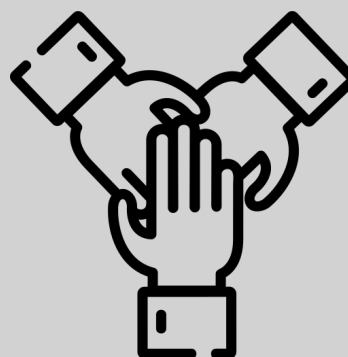

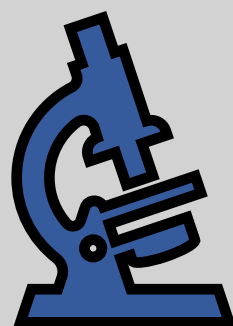

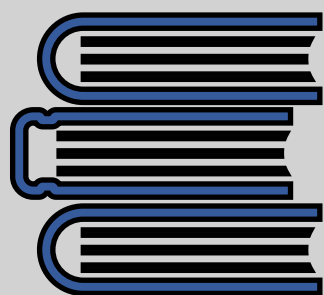

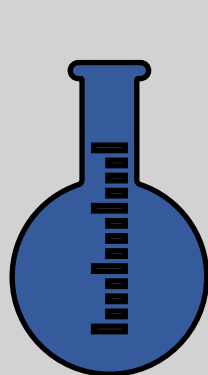

INCREASING THE NUMBER OF ARTICLES INDEXED ON INTERNATIONAL  
PLATFORMS (SCOPUS)

*In 2025 - 1000 articles*

# The Internationalization Strategy of the University

Our University follows several principles to implement international educational activities. As a matter of fact, the University's participation in the global educational process confirms the success of the internationalization strategy. Some of the most important principles for the university are :

- International accreditation of educational programs by independent agencies that are members of international European networks for ensuring the quality of education;
- Cooperation in educational activities with foreign partner universities on joint training programs (Double Degree);
- Increasing the percentage of foreign citizens studying at the University;
- Attracting foreign specialists to top managerial positions and teaching academic subjects in English;
- Ensuring academic mobility of students and teachers (both incoming and outgoing);
- Recognition of credits received during the implementation of an academic program at another university, including a foreign one;
- Recognition of qualifications awarded by foreign universities to achieve new academic and professional goals;
- Participation in interdisciplinary international research networks aimed at solving global problems of humanity;
- Export of educational services in the form of transnational and cross-border education;
- Strengthening the university's position as a part of the global education system, by being accredited by international agencies, involved in the implementation of joint training programs for specialists, capable of exporting educational services.

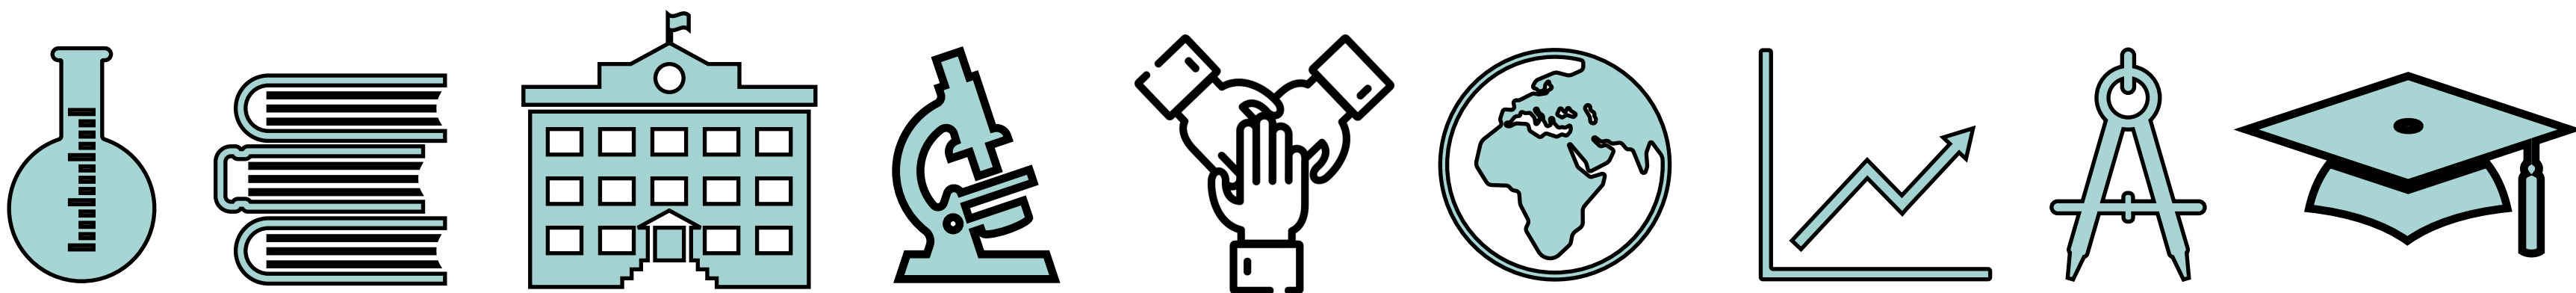

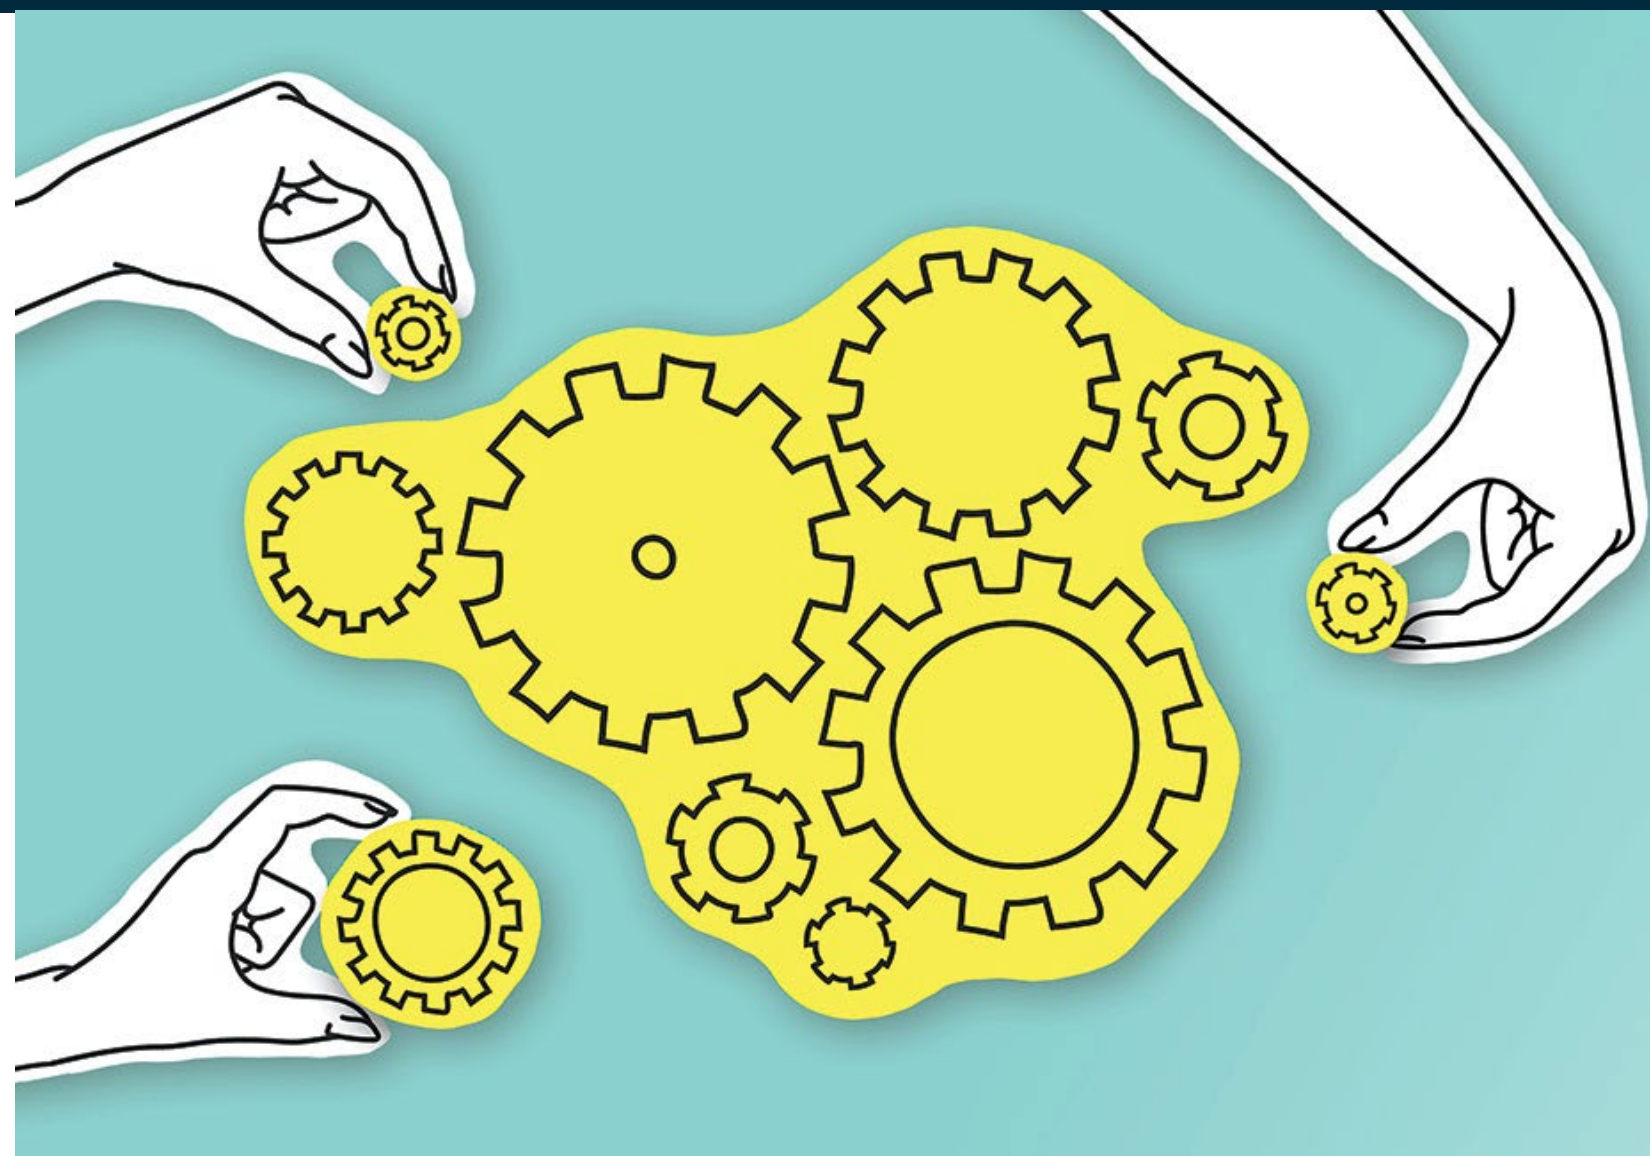

# Main Goals for Our Academic Collaboration

Our University aims to achieve the following goals as a result of our academic collaboration with partner HEI`s:

- Organizing workshops and seminars aimed at both students and academic staff;
- Opening double-degree programs in the fields of Computer Science, Mathematics and Electrical & Electronics Engineering;
- Creating international research projects (Erasmus+);
- Opening students and staff exchange programs;
- Establishing a joint research & innovation centre at Tashkent State Transport University.

# Thanks for your attention!
