1

"Manufacturing solar panels" in the territory of the institute has been implementing.

1

In 2017, a total of 111,000 euros of solar batteries and 100,000 euros of laboratory equipment were brought from Germany within the framework of the GIZ grant project "Adaptation to climate change in the settlements of Uzbekistan".

3

In 2021, the institute participated in the development of the transport master plan for the Samarkand agglomeration

4

In order to solve the problems of regional enterprises, the "Center of Innovative Ideas" started its activity.

5

IT-Park incubation center was established "On measures to bring the field of information and communication technologies to a new level".

6

The scientific center "Cotton Farming" was established in order to increase the yield of cotton by implementing seed breeding, variety selection, tillage, fertilizing, and irrigation based on science and innovation in cotton cultivation.

Testing of construction products

The "Construction Products Testing" laboratory determines the quality indicators of the products of all the construction material manufacturing enterprises in the region and gives its conclusion.

Project winner

The institute is the winner of the project on preventing fiber loss during cotton processing and improving the quality of cotton machine-picked.

Polytech Architectural Project

"Polytech Architectural Project" group with a license to prepare project-estimate documents of construction objects in the social sphere was established.

Project winner

The institute became a winner In the competition of the Ministry of Innovative Development of the Republic of Uzbekistan, the practical State grant project on the topic of the production of durable sewing threads.

Retraining of architect-designers and builders

A regional center for retraining and professional development of architect-designers and builders was established.

Project winner

The projects of scientists of the institute, such as the cleaning of machine-picked cotton fibers, the production of new shirting fabrics and the production of leather goods, were financed by manufacturing enterprises..

OVER THE PAST THREE YEARS, THE INSTITUTE HAS:

01

Cooperation with about 50 foreign higher education institutions

02

More than 70 foreign professors and teachers were involved in the educational process of the institute

03

More than 40 students are studying at the master's degree

04

International cooperation relations have been established with more than 40 developed countries

05

More than 100 professors and teachers have completed internships abroad and improved their qualifications

06

7 professors-teachers have been studying for doctorates abroad
